Action

Ref.: ADOPTION OF THE FEDERAL FY 2000-01 ELDERLY AND DISABLED PERSONS TRANSIT (SECTION 5310) PROGRAM

Issue: Should the California Transportation Commission adopt the Federal FY 2000-01 Elderly and Disabled Persons Transit (Section 5310) Program as scored by the Commission's State Review Committee?

Recommendation: Commission staff is recommending that the Commission authorize Caltrans to fund projects on the attached list down to the level of actual available funding. Staff is also recommending that the list show projects down to the level of 110% of estimated available funding in case projects higher on the list do not move forward or if the funding estimate proves to be low. The current estimate of total available funding is \$8,943,873. This puts the 110% of estimated available funding level at \$9,838,261 (all of these figures include the required 20% local match less the 5% for administration). All projects are being recommended for funding at the levels requested.

Background: For the Federal FY 2000-01 Elderly and Disabled Persons Transit Program, the Regional agencies submitted 127 applications for 389 projects. This represents a request for a total of \$17,496,749 in Program funds, twice the amount of funds typically made available to California. In accordance with the Commission's adopted procedures, all applications were scored locally using the Program procedures adopted by the Commission in January 1997. The State Review Committee subsequently reviewed and in some cases rescored those projects, again, using the Commission's adopted procedures. Projects with large differences between the Regional score and the State score, and where that difference would have moved the project below the potential funding level, were discussed with the Regional agency. These discussions focused on the adopted procedures and whether the procedures had been correctly applied. Commission staff and the State Review Committee also conducted a staff level conference with the Regions and/or project applicants to hear any appeals based on technical issues that affected the scoring. As a result of the discussions with the Regions and the staff level conference, thirty-two projects were rescored. A statewide-priority list was subsequently assembled (attached). It should be noted that while State scores tended to be lower than Regional scores, the State scores necessary to stay above the expected funding line (100%) of expected funding on the attached list were also lower than if the Regional scores had been used to prioritize the list. Using Regional scores, the lowest potential funding level score would have been 81, while the average Regional score, for projects also scored by the State, was 88. Using State scores, the lowest potential funding level score is 80, while the average State score is 83.

The Elderly and Disabled Persons Transit Program was established in 1975 and has been administered by Caltrans since its inception. It provides annual grants of federal funds to purchase transit capital equipment to meet the specialized needs of elderly and/or disabled persons for whom mass transportation services are unavailable, insufficient, or inappropriate. A 20% local match is required from all Program participants. The Program, since its inception, has provided approximately 2,400 vehicles to serve a variety of client groups and programs ranging from small agencies with specific clientele (e.g., dialysis and AIDS patients) to paratransit

providers serving entire communities. Most of these agencies are non-profit organizations while some are public agencies where no non-profit organizations are readily available to provide the proposed service.

Although the Program is small in terms of dollars, it has a relatively high visibility and was the subject of debate for many years and the subject of legislation during at least two legislative sessions during fiscal years 1994-95 and 1995-96. Assembly Bills 2766 and 772, respectively, were introduced as a result of dissatisfaction by several RTPAs over funding decisions impacting their regions. Both bills were opposed by the Governor and defeated in the Senate Transportation Committee. Assembly Bill 772 was granted reconsideration in FY 1995-96 and was subsequently signed by the Governor. Agreement on a solution was not readily forthcoming and staff believes that the Commission's role in the Program came about as the result of a legislative compromise codified in AB 772 (Chapter 669, Statutes of 1996).

AB 772 placed three mandates on the Commission regarding the Program:

1. The Commission shall direct Caltrans on how to allocate funds for the Program.
2. The Commission shall establish an appeals process for the Program.
3. The Commission shall hold at least one public hearing prior to approving its Program of projects.

In January of 1997, the Commission approved procedures and criteria for the program that utilize project scoring criteria and a State Review Committee consisting of representatives from the State Departments of Rehabilitation, Developmental Services, Aging and Transportation, with Commission staff acting in the role of facilitator/coordinator for the State Review Committee.

In accordance with the Commission's adopted procedures, the Regional Transportation Planning Agencies (RTPAs) or its designated Regional Evaluation Committee score projects within their jurisdiction utilizing the Commission's adopted project scoring criteria and send a scored list of their projects to Caltrans. The RTPA must notify its applicants of their project scores and provide information about the local appeals process. Caltrans integrates the Regional lists into one statewide draft prioritized list and forwards it to the State Review Committee. The State Review Committee then reviews the list and based on the project scores calculated by the Regions, and in compliance with the Commission's adopted procedures, determines a "cutoff point" for project review by the Committee, at which the 110% of the estimated available program funding would be expended. The concept of having the State Review Committee review projects only down to the 110% "cutoff point" was adopted by the Commission as a means to respect the reduced amount of time available to the Committee, which is the result of Program administrative costs being capped at 5% of Program dollars. This year, the State Committee actually reviewed slightly more than the minimum number of projects, because the 110% funding line fell within a group of projects, all with a Regional score of 81. The equitable solution was to have the State Review Committee score all projects with a Regional score of 81 or more. Based on the Commission's adopted procedures, the State Review Committee rescores any projects that it determined to be incorrectly scored by the Regions.

The State Review Committee held a staff level conference for all stakeholders on August 22, 2000, to discuss the statewide-prioritized list and hear any appeals on technical issues. The Committee subsequently created a final statewide-prioritized list (attached). The Commission must hold a public hearing to discuss the prioritized list and overall program policy. After the hearing, the Commission may consider staff's recommendations and adopt the attached list.

CALIFORNIA TRANSPORTATION COMMISSION

ADOPTION OF FEDERAL FY 2000-01
ELDERLY AND DISABLED TRANSIT PROGRAM

Resolution G-00-XX

- 1.1 WHEREAS, Federal law (Title 49 U.S.C. Section 5310) provides for capital grants for the purpose of assisting private non-profit corporations and under certain circumstances, public agencies in providing transportation services to meet the needs of elderly persons and persons with disabilities for whom public mass transportation services are otherwise *unavailable, insufficient, or inappropriate*; and
- 1.2 WHEREAS, State law, AB 772 (Chapter 669, Statutes of 1996), placed three mandates on the Commission regarding that Program as follows:
 1. The Commission shall direct Caltrans on how to allocate funds for the Program.
 2. The Commission shall establish an appeals process for the Program.
 3. The Commission shall hold at least one public hearing prior to approving its Program of projects; and
- 1.3 WHEREAS, the Commission worked with a 15-member advisory committee made up of individuals from the Regional Transportation Agencies, state and local social service agencies, the California Association for Coordinated Transportation, Caltrans and Commission staff, to develop a Program process that will provide for a statewide ranked list of projects to be adopted by the Commission and funded by Caltrans; and
- 1.4 WHEREAS, the Commission adopted a process utilizing project scoring criteria and a statewide review committee consisting of representatives from the State Departments of Rehabilitation, Developmental Services, Aging and Transportation, with Commission staff acting in the role of facilitator/coordinator for the statewide committee; and
- 1.5 WHEREAS, the Commission's adopted Program process has been complied with and the public hearing has been held; and
- 2.1 NOW THEREFORE BE IT RESOLVED, that the Commission adopts the attached list of projects as recommended by Commission staff as the Federal FY 2000-01 Elderly and Disabled Transit (Section 5310) Program; and
- 2.2 BE IT FURTHER RESOLVED, that in adopting the list, the Commission hereby directs Caltrans to allocate funds for projects on that list down to the level of actual available funding, pursuant to California Government Code Section 14055.2(b).
